ASPARTECH

Company Profile

About Us

Aspartech ERP is an integrated Enterprise Resource Planning (ERP) platform developed to help businesses manage their operations efficiently through a centralized system.

The platform supports inventory management, purchasing, sales, warehouse operations, accounting, customer management, and marketplace integration. Aspartech ERP is designed for distributors, wholesalers, retailers, and e-commerce businesses that require real-time business data and automation.

Vision

To become a trusted business technology provider that helps companies improve productivity, efficiency, and growth through digital transformation.

Mission

- Develop reliable and scalable ERP solutions.
- Simplify business operations through automation.
- Provide seamless integration with e-commerce marketplaces.
- Deliver accurate and real-time business information.

Core Features

Inventory Management

- Multi-warehouse stock management
- Stock adjustment and stock transfer
- Real-time inventory monitoring

Sales Management

- Sales order processing
- Invoice generation
- Customer management

- Sales reporting

Purchasing Management

- Purchase orders
- Supplier management
- Goods receiving
- Purchase reporting

Warehouse Management

- Goods in and goods out transactions
- Stock movement tracking
- Delivery management

Accounting & Finance

- Accounts receivable
- Accounts payable
- Financial reports
- Cash flow monitoring

Marketplace Integration

- Product synchronization
- Inventory synchronization
- Order synchronization
- Shipping and fulfillment management

Supported Platforms

Aspartech ERP supports integration with various online sales channels and business systems, including:

- Lazada
- Shopee
- TikTok Shop
- Tokopedia
- Company Websites
- Internal ERP Modules

Application Scenarios

Aspartech ERP is suitable for:

- Distributors
- Wholesale Businesses
- Retail Stores
- E-commerce Sellers
- Omnichannel Businesses
- Multi-Warehouse Operations

The platform enables users to manage products, inventory, orders, purchases, sales, and financial data through a single dashboard.

Technology

Aspartech ERP is developed using modern web technologies to ensure performance, scalability, and security.

Technology Stack:

- Laravel Framework
- MySQL Database
- REST API Integration
- Web-based Dashboard
- Cloud & On-Premise Deployment

SOFTWARE OWNERSHIP DECLARATION

Date: June 16, 2026

Subject: Declaration of Software Ownership

To Whom It May Concern,

I hereby declare that the software product named **Aspartech ERP** is developed, maintained, and owned by our organization.

Software Information

Software Name: Aspartech ERP

Software Category: Enterprise Resource Planning (ERP) & Omnichannel Management System

Developer/Owner: Aspartech ERP

Declaration

We confirm that:

1. Aspartech ERP is an original software solution developed and maintained by our organization.
2. The source code, application architecture, database design, and system integrations are under our control and management.
3. The software is actively used for managing business operations, including inventory management, sales, purchasing, warehouse management, accounting, and marketplace integrations.
4. We possess the necessary rights to develop, modify, maintain, and distribute the software.
5. The information provided in this declaration is true and accurate to the best of our knowledge.

This declaration is provided in support of our application for software service qualification and marketplace platform integration.

Should additional information or supporting documentation be required, we are willing to provide further evidence of software ownership and development activities.

Sincerely,

Authorized Representative

Aspartech ERP
